PROFESSIONAL EXPERIENCE

Finance Intern May 2024 – Present

Trellix (Dallas, USA)

- Designed and automated interactive financial dashboards using Power BI for executive leadership, consolidating **\$50M+** in revenue performance, P&L trends, budget variances, FP&A operational deliverables, including payroll, operating and capital expenditure reporting reducing reporting time by **30%**.
- Led analysis of topline metrics, including bookings, ARR, renewals, and revenue performance, while conducting variance analysis on revenue and expense trends using Google Looker, reducing forecast deviations by **20%** and improving financial accuracy for strategic decision-making.
- Optimized the **\$100M+** annual budgeting process by refining cost allocation strategies and streamlining approval workflows while automating financial controlling processes, reducing budget variances by **15%**, manual effort by **40%**, and accelerating financial reporting by **30%**.
- Partnered with FP&A team and cross-functional departments (Accounting, Enterprise Engineering, Payroll) to streamline reconciling **\$10M+** in monthly transactions, optimizing cash flow management, reducing discrepancies by **20%**, and improving financial reporting accuracy.
- Built scenario-based forecasting model using Tableau for quarterly and long-range planning, managing cash flow, capital allocation analysis, and headcount budget approvals for a **\$50M+** operating budget, optimizing working capital by reducing cash flow variances by **20%**.
- Partnered with cross-functional teams to conduct financial risk assessments using Google Looker and Salesforce, reducing compliance risks by **25%** and identifying **\$5M+** in cost-saving opportunities through data-driven operational improvements.
- Oversaw G&A forecasting cycles for IT tooling (e.g., Snowflake, AWS), headcount-related PRs, and legal vendor accruals, maintaining a live forecast and reducing unapproved spend risks by **30%**.

Assistant Manager – Finance

April 2021 – July 2023

Infrastructure Leasing & Financial Services Limited (Mumbai, India)

- Prepared quarterly and annual financial statements, including P&L and balance sheet, for companies having capital base of **\$140 million**, ensuring regulatory compliance while assisting auditors in Cost Audit and Statutory Audit, streamlining audit processes and reducing review time by **20%**.
- Revamped advanced financial models for cash flow forecasting and capital budgeting, integrating historical trends, macroeconomic indicators, and sensitivity analysis, resulting in a **12%** increase in forecast predictability which enhanced capital allocation strategies.
- Developed and implemented CAPEX allocation models for construction projects, optimizing cash flow management and investment strategies to enhance project feasibility, reduce capital constraints by **20%**, and maximize ROI through alternative funding structures.
- Automated variance analysis by extracting financial data using SAP and SQL, integrating it into Power BI dashboards for business performance tracking, improving reporting efficiency by **10%** and accelerating decision-making speed.
- Conducted financial risk analysis by identifying key drivers of financial volatility, cost inefficiencies, and operational risks to implement mitigation strategies that reduced financial risk exposure by **20%** and improved regulatory compliance.
- Managed monthly reconciliations of fixed-income and project-based investments, performing NAV tracking, performance review, and fund reporting in collaboration with treasury and investment teams.

Financial Planning & Analysis Intern

October 2019 – February 2021

Reliance Industries Limited (Mumbai, India)

- Created monthly financial reports by consolidating COGS, revenue forecasts, and OPEX using Excel and SAP, aligning key metrics with business goals and reducing variance errors by **15%**.
- Optimized accounts receivable/payable cycles, implementing cash flow management strategies, reducing working capital inefficiencies by **20%**, and minimizing outstanding liabilities by accelerating receivable collection and optimizing vendor payment terms.
- Collaborated with finance leaders to enhance budgeting models and implement investment evaluation tools, improving forecast accuracy by **18%** and enabling better capital allocation.

Accounts Executive

May 2016 – September 2019

Shriji Herbal Products (Mumbai, India)

- Optimized material procurement and logistics, identifying **15%** cost-saving opportunities through product cost analysis and operational expense audits.
- Streamlined financial reporting, improving budget variance analysis accuracy by **10%** through enhanced monthly revenue and expenditure reporting.
- Implemented an internal controls checklist across finance processes, reducing data entry errors by **40%** and improving audit compliance.
- Conducted cost audits by mapping SKU-level material flows and overhead absorption rates, identifying **₹3M+** in annualized cost inefficiencies.

TECHNICAL SKILLS
